A Word About the Dream Couch Bed

It is the most perfect bed that we know anything about. The following reasons will tell you why we think so. It has head and foot rails on both halves. As a couch it has the same width and height as a full size regulation couch and is vastly more easy. It is opened and closed by a slight pressure of the foot on the lever. **Works so easy any kid can do it.** When couch is opened both halves are of equal length, width and height, making a complete, even and continuous spring connecting in center.

Mattresses are filled with felted cotton, making a soft, durable bed to rest upon.

The real article shown you on our floors.

Cost of Labor

at this time of the year does not enter into the price you pay us for a desirable Suit. The price is now so low that it would not pay for the materials used let alone the cost of making. Ladies that themselves think that they cannot dress well on a small allowance can have a nice new Suit at a very small price. When we say half-price that ought to take them all in a day and it would if all ladies in our town knew just what this half-price meant.

Ladies' Half Price Suits

These Suits are mostly in navies and black, all of them staple serviceable Suits, priced as follows:

\$12.50 Suits now.....	\$6.25
18.00 Suits now.....	9.00
20.00 Suits now.....	10.00
25.00 Suits now.....	12.50
27.50 Suits now.....	13.75
30.00 Suits now.....	15.00
37.50 Suits now.....	18.75

The above all half price.

The following are at less than half price. One rack of very pretty Suits in light colors. These were \$15.00, \$18.00, \$25.00 and \$27.00; now to close at \$7.98 and \$9.98 so that you can buy a nice Suit at less than half price. If your size is here your Suit bill will be very small. Better try on a few before they are picked over.

Sale of Summer Dresses

One lot of Blue Percale Dresses made of best percale with white embroidered cuffs and collar. You would consider these Dresses all right at \$1.98. Now we are selling them at only \$1.00 each, just about half price. All are new and fresh and so it goes. A little money goes a long ways invested in goods that you want to use right now.

One lot of Gingham Dresses made of checked and striped gingham, with white embroidered collars. These at the same price as above lot. Only \$1.00 each.

On one of our tables are a nice lot of Waists that are just right for warm weather. These you can buy at less than first cost to us. When these Waists are washed and ironed they will look good to you.

When Suits and Coats are marked down so that we are selling them at half price, we show that we are anxious to close them. Really it should be the customer that is anxious. Anxious to get at such a sale. Ladies can be well and neatly dressed for little money by attending these sales at the end of each season.

Corset Economy

Do you buy a Corset as you would a pair of shoes or almost any other article with an idea in your mind that you want service for the price that you invest? If you do, just hesitate for one minute and consider whether you are buying the right kind of Corsets.

We appeal to you at this time to consider quality. You may think that a 50c Corset is good enough to sweat out. Would it not be better economy to buy a dollar Royal Worcester Corset that will wash when soiled, with steels that will not rust. This Corset will outwear three pairs of our 50c Corsets and we have the best Corset for fifty cents made.

Dollar Royal Worcester Corsets have the shape. You can get them as you want them, long, short or medium high bust, low bust, long back or short back. They will fit and stay in shape.

We have watched the Corset business for years. We have one of the best Corset departments in Vermont. We want to take care of you right. It is for our business interests. We stand back of every Corset over one dollar in price.

Hosiery Quality

If you will for one year keep an account of your hosiery purchases you will find out that lots of your money goes that way. Have you ever studied a way to save a part of that leak? We have had this Hosiery problem before us for the last 21 years and have satisfied ourselves that by selling Black Cat Hosiery we have saved our trade a god margin besides handing them a better shaped, and a better fitting Hose.

We pay more for Black Cat Hosiery to sell for 25c than any other brand on the market. Would we do this just to help the manufacturers out? Not for one minute. Our customers form a part of our business assets. We are helping them that in turn help us. It's mutual when you buy Black Cat Hosiery.

Black Cat Hosiery here in nearly every grade that they make. Fine Gauge Hose at 25c and extra heavy at same price. Boys' and Girls' Hose with extra spicings of linen for 25c.

Remnants.—Last Saturday we opened up all of the remnants that we had made during the past six months. We had a big sale. There are lots of nice pieces on our table today that we want to see closed out before Saturday night. We mark every piece trying to make one piece of as good value as the rest. In that way the last are as good as the first.
